DETAILED ACTION

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

2. The abstract of the disclosure is objected to because It contains the phrase "is disclosed" in the first sentence and because it is longer than 150 words. Correction is required. See MPEP § 608.01(b).

3. Claims 5-8 are objected to because of the following informalities: In the preambles of each of claims 5-8 the phrase "fastening structure" should be changed to "heat dissipating device" to be consistent with the claims from which they depend.

Appropriate correction is required.

4. Claims 1-4 are allowed.

5. Claims 5-8 are objected to as indicated above, but would be allowable if the informalities were corrected.

6. The following is a statement of reasons for the indication of allowable subject matter: Applicants' argument that there was insufficient motivation to combine the references was found to be convincing.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Teresa J. Walberg whose telephone number is 571-272-4790. The examiner can normally be reached on M-F 9:00 - 5:30.
